**Dalhousie University, Department of Emergency Medicine, Division of EMS**

has partnered with the

**McNally Project for Paramedicine Research,  
and the Paramedic Association of Canada (PAC)**

to present a

## PAC Expo Preconference Research Day

**Halifax, Nova Scotia (in-person)**

### Keynote Speaker

**Dr. Georgette Eaton**

Georgette is the Consultant Paramedic in Urgent Care at London Ambulance Service NHS Trust.

Georgette completed her DPhil (PhD) in Evidence Based Healthcare at the University of Oxford in January this year, which explored the impact of paramedics in NHS primary care, using realist approaches to improve understanding, support intelligent policy and make recommendations for future workforce planning. Georgette is also facilitator and co-chair within the Oxfordshire Council for Allied Health Professions Research, as well as a Senior Fellow International Collaborator with the McNally Project.
